

NATURAL-LOOKING SURGERIES MAKE IT HARD TO TELL WHO'S HAD A BOOB JOB

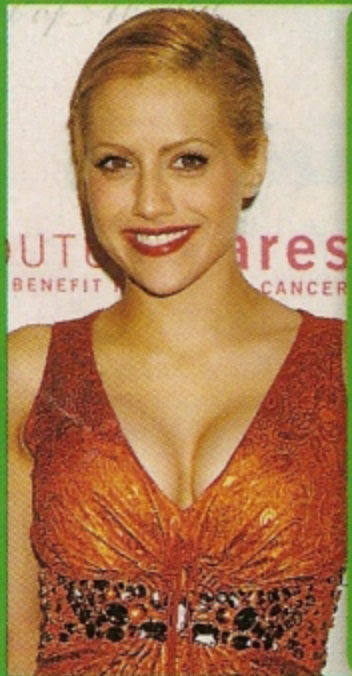

MARIAH CAREY

Mariah's body has been the subject of speculation for years but she says she hasn't had any work done. But plastic surgeon Dr. Anthony Youn believes "the space between her breasts" indicates augmentation.

HALLE BERRY

Dr. Youn, who has not treated any of these stars, calls the Oscar-winner's breasts "impossibly perfect." But Halle has said they're natural.

BRITTANY MURPHY

According to Dr. Youn, Brittany's breasts appear too round and full to be completely natural. "This looks like a very nice job," he says. But Brittany has denied having surgery.

JENNY MCCARTHY

In her book *Jen-X*, Jenny admits she hated the D-cup implants she got at 18. In 1998, she replaced them with a more natural C cup.
